PROFESSIONAL SUMMARY

Motivated BCA student and aspiring Java Backend Developer with hands-on experience building secure, AI-integrated web applications. Skilled in REST API development, Spring Security, and SQL databases using Spring Boot. Solved 180+ LeetCode problems. Open to internships and entry-level full-time opportunities.

TECHNICAL SKILLS

Languages: Java, SQL

Backend: Spring Boot, Spring AI, Spring Security, Spring Data JPA, Hibernate, JDBC, REST APIs, FastAPI

Microservices: Spring Cloud, OpenFeign, Eureka Server, Spring Cloud API Gateway

AI Integration: Groq AI, LLM Integration

Databases: MySQL, PostgreSQL

Tools: Docker, Docker Compose, Git, GitHub, Maven, Postman

Core Concepts: OOP, Data Structures and Algorithms, Java Collections Framework, Multithreading, DBMS

PROJECTS

AI-Powered Job Portal

Tech Stack: Spring Boot, FastAPI, Groq AI, Spring Security, PostgreSQL, REST APIs

- Developed a job application platform with resume analysis and candidate matching.
- Integrated Groq AI through a FastAPI microservice with Spring Boot for automated resume parsing and score generation.
- Built REST APIs for profile management, job creation, application submission, and scoring metrics.

E-Commerce Microservices Architecture

Tech Stack: Java, Spring Boot, Spring Cloud, Docker Compose, MySQL, OpenFeign, Eureka Server, API Gateway

- Implemented three Spring Boot microservices for Product, Inventory, and Order domains.
- Containerized services and orchestrated local multi-service execution using Docker Compose.
- Configured OpenFeign and Eureka Server for service communication and discovery, with Spring Cloud API Gateway for request routing.

Full-Stack E-Commerce Platform

Tech Stack: React, Java, Spring Boot, Spring Security, JWT, PostgreSQL, Stripe, REST APIs

- Developed a React and Spring Boot e-commerce application supporting product catalog and shopping cart workflows.
- Built REST APIs for product and cart management, connecting the React frontend with the backend.
- Integrated Stripe for payment processing and implemented role-based authorization using Spring Security and stateless JWT authentication.

EDUCATION

Bachelor of Computer Applications (BCA)

Kashi Institute of Technology, Varanasi

CGPA: 7.5 | Expected Graduation: 2027 | Open to internships and entry-level full-time roles
